

ARCHITECTURE OF LIGHT

V. 09.2024

PATRIZIAGARGANTI

Firenze

From first to last structural and aesthetics elements
many extraordinary attentions, and one only imperative:

Handmade in Florence

ITALIAN • CUSTOM • DESIGN

OUR STORY OF LIGHT

The history of the company dates back to the 70' when the adventure of Patrizia starts with the birth of a small artisan business, for wich she designs the very first exclusive creations. The small firm quickly make its stamp on the furniture industry manufacturing in Florence and distributing worldwide.

Located in Florence in a 3500-square-meter space that manages the entire production process, a significant added value that allows the company to handle various processing stages with meticulous quality control, optimize production times, and produce custom-made items.

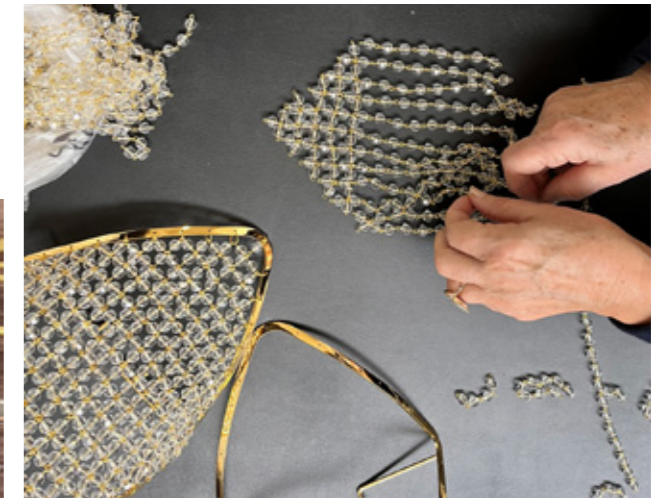

BESPOKE DESIGN

Thanks to the artisanal production and the internal management of every process it is possible to customize every collection and develop unique products or installations. Our in-house design studio, managed by the CEO, is constantly working on new product designs, including custom items based on client specifications. We also provide rendering and photomontage services.

PRECIOUS IMPERFECTION

We dedicate ourselves to a continuous research of innovative processing techniques using the finest materials to create enduring and charming design. Every single product is shaped and embellished by hand never using any kind of industrialized process, giving a soul and unique image to each item but always paying specifying attention to quality.
